We now offer all fireplaces as 80mm (3") nominal rebates and can make rebate returns should you require a smaller rebate, please advise on your order.

We can also make different back panels and slips should you wish to fit another size appliance in the fireplace other than that it is currently made for so please also advise on your order.

Unless otherwise stated, the fireplaces will have a 16" cut out in the back panel.

Alternative rebates returns & back panels will be FOC if purchased with the accompanying stove.

Charlton & Jenrick Company and Product Accreditations

Charlton & Jenrick have made a very substantial investment over the years in obtaining a wide range of accreditations and trade body memberships to ensure that we are consistently offering the best possible products and services to our customers. We not only manufacture appliances but we also put in huge behindthe-scenes efforts to ensure that we input to and keep abreast of impending legislation, standards, product performance and environmental requirements. Currently we subscribe and contribute to the following accreditations:

The UKCA (UK Conformity Assessed) mark is the new UK product mark that replaces the CE mark for products being placed on the market in Great Britain (England, Wales and Scotland). It covers most products that previously required the CE mark. All our fires comply to this new mark.

SIA Ecodesign Ready marking is an independent scheme run by the Stove Industry Alliance to verify and independently demonstrate that wood burning stoves already meet the strict requirements of the

2022 EU Ecodesign Directive for performance and emissions. HHIC, the Heating and Hot Water Information Council is a trade body representing the UK gas fire

HEATING & HOTWATER INDUSTRY COUNCIL IS A LIAGO BODY TOPICS AND INDUSTRY COUNCIL IN INDUSTRY COUNCIL IS A LIAGO BODY TOPICS AND INDUSTRY COUNCIL IN INCIDENT COUNCIL IN INC within the HHIC we have an input into EU and UK standards committees, communicate with Government departments and keep abreast of serious issues affecting the gas fire industry.

SIA, the Stove Industry Alliance is the UK trade body for the solid fuel stove industry. C&J are members of the Executive Committee and currently

chair the Technical Committee enabling input into UK and EU standards committees and lines of communication into Government departments and keeping up to date on a wide range of issues affecting the industry.

DEFRA exemption is the mechanism where our wood burning stoves are checked and certified to comply with the Clean Air Act and therefore allowed to be used in smoke control zones

throughout the UK. Involving a strict test programme and independent report, this is then thoroughly assessed by DEFRA advisors before being accepted.

Gas Safe Register is the mandatory national competent persons scheme to allow work on gas fittings and appliances in customers' homes.

Our service and most of the sales team have completed the regular training courses and sit the regular exams to ensure our customers have the best support and service.

ISO 9001 is the internationally recognised standard for Quality Management Systems which in our case includes the activity of

product design and development as well as production, sale and support functions. Annual independent audits and certification ensure continued compliance in producing consistent quality products.

ISO 14001 is the internationally recognised standard for Environmental Management Systems. Once again this independently

audited and certified system makes sure that we are regularly monitoring and reviewing the impact of the business and its products to ensure we minimise negative impacts and promote best practice.

ClearSkies is a certification mark for Emissions clearSkies and Energy Performance of domestic wood & solid fuel stoves and fireplaces. ClearSkies

ratings, namely the certification levels, will show appliances that meet defined emissions and efficiency thresholds that exceed the minimum requirements set by the ecodesign regulation.

CE marking of products is mandatory for electric fires and stoves in Europe. We always invest in independent testing and certification to ensure our products meet all necessary requirements for the regions we operate in.
