

Harmony and Stanford Oil Stoves

Rule of thumb oil use at 50p per litre:

The Main Components of the Harmony and Stanford Oil Stoves

Harmony 11 5kW

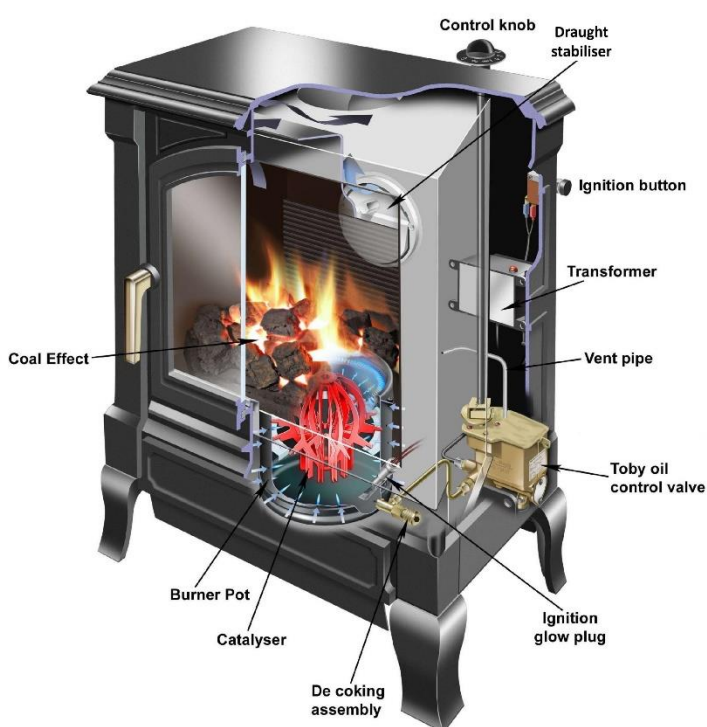

Low fire 0.13L/hr £0.07/hr

High fire 0.46L/hr £0.23/hr

Stanford 21 6kW

Low fire 0.15L/hr £0.08/hr

High fire 0.63L/hr £0.32/hr

The rate of fuel used may vary to those figures above depending on how the stove has had to be set up for the room size and flue conditions when the stove is commissioned.

Poor maintenance or incorrect set up on commissioning will also increase fuel usage.
